

**Better medicines bring a brighter future.  
Could you help us create it?**

## **One-year R&D Information Student placements 2015-2016**

One of the world's leading pharmaceutical companies, AstraZeneca is offering several one-year undergraduate industrial trainee placements within the R&D Information function at the Alderley Park site in Cheshire or an AstraZeneca Cambridge site.

You will be given the opportunity to support our scientists by undertaking small scale, agile application development or by working on major, long term projects. You will be expected to adhere to internal development lifecycle standards and will use tools such as Java, JavaScript, Python, HTML 5, CSS, jQuery, XML, AngularJS, AJAX, SQL, Oracle, NoSQL as well as working with industry standard software.

Your aim will be to help us meet the scientific, technical and medical information needs of our drug-hunting projects. You should have practical experience in developing software and have a keen interest in understanding the science behind the drug discovery process. At least one GCSE, AS or A-Level qualification in a life science would be an advantage but this is not essential.

**To find out more and to apply, visit [www.astrazenecacareers.com](http://www.astrazenecacareers.com)**

**Closing date for receipt of applications: 16th January 2015**

If successful you will be hired by HAYS and working at AstraZeneca.
