

Online video workshop- The laser cutter and how to draw simple shapes on Autocad.

Date- 2pm 9th Nov

Maximum 4 students.

Duration 2 hours.

This workshop will introduce you to drawing in CAD and some of the things that are possible on the laser cutter in terms of constructing from wood.

You will learn the very basics of using the powerful CAD programme Autocad.

At the end of the workshop you will have your drawings cut out for you on the w_o_o_d_w_o_r_k_s_h_o_p's_l_a_s_e_r_c_u_t_t_e_r._._

After the workshop you will be able to advance your knowledge of Autocad by following online videos and you will be able to send your drawings to be cut on the wood workshop laser cutter.

You will need to download Autocad before the workshop. This is free.
