D_o_n'_t_w_a_i_t_a_r_o_u_n_d_ - get the job done. A course on worry-free woodworking covering tools and techniques to knock-up anything in a jiffy from any old crap lying around.

In this course you will learn invaluable life-changing skills and knowledge from an experienced bodge artist. You will be encouraged to scavenge the area for bits of wood, and you will learn quick and easy ways to transform it into practical or objects of art.

Learn hacks like turning your ceiling into a clamp or how to make your wood longer.

Become efficient in tools like Japanese saws, chisels and drills.

Gain confidence in cutting compound angles for reinforcement triangulation

Leave your tape measure at home and trust your instincts.

Tools will be provided but students will be encouraged to buy their own in order to progress as a bodge artist.

No previous wood working experience is necessary.

You will need live video connection and a space to work in.

Students must be able to commit to at least 3 out of 4 dates.
