GISRUK 2019
23rd – 26th April
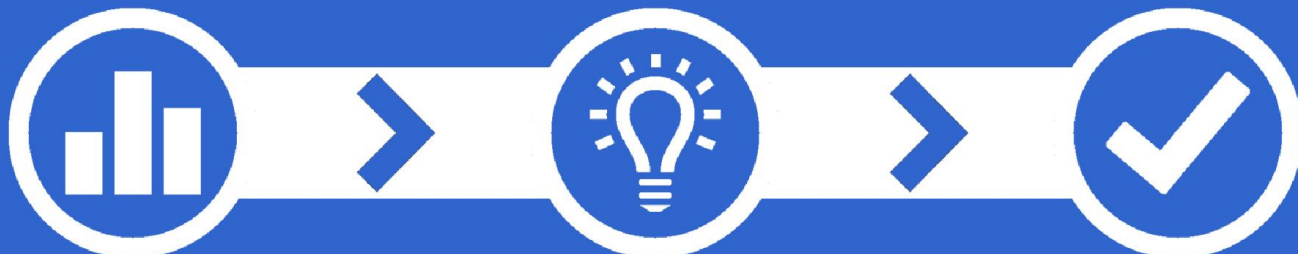

Newcastle University

Geographical Information Science
Research - UK

GISRUK

From data to decisions

CALL FOR PAPERS (closing 18th January)
We are inviting papers that cover the full spectrum of the geospatial data flowline, from data collection and management, through analytics and modelling, to visualisation and decision-support. There are two submission forms – full papers of up to 1500 words, and for early career researchers shorter papers, up to 2 sides of A4, for research ideas for discussion.

www.newcastle.gisruk.org

Conference programme
- 3 keynote speakers
- A panel session with invited panellists
- Early career presentations
- Over 40 accepted talks
- Conference reception and dinner

Early career workshops
- Accessing and using open data with API's
- ESRI UK
- GIS in industry
- Data visualisation
