If corrections (see guidance note 3) are required, are these attached to the joint report form?

Yes No

If NO, these should be sent to the Graduate School Administrator (via rssteam@ncl.ac.uk or medpg-enquiries@ncl.ac.uk) as soon as possible.

Notes for Examiners:

1. Examiners should refer to the University Handbook for Examiners of Research Degrees for guidance when examining research degree submissions, for clarification on the doctoral assessment criteria and the implications of each recommendation.

(<http://www.ncl.ac.uk/students/progress/assets/documents/ExaminersHandbook.pdf>)

2. Where the examiners cannot agree upon a recommendation, then each examiner should complete a separate report indicating which recommendation s/he supports.

3. Please note in all cases where a candidate is required to make corrections to a thesis or to revise a thesis, it shall be the responsibility of the examiners to provide details of the corrections and/or revisions required of the thesis. The examiners shall provide a written statement of the nature of the changes they wish to see made to the thesis and enclose with this joint report. The Graduate School Administrator will then provide the candidate with both the joint report and the written statement of corrections/revisions. When forwarding the final report to the candidate, the Graduate School Administrator will make it clear to the candidate that resubmission will not guarantee the award of a qualification.
