

Tropical Health and Environmental Research

Our new initiative at NUMed adopting the ONE HEALTH approach to addressing global health problems

Spotlight Event

21 November 2017

Research Beehive, Room 2.21

11:30 - 13:00

Established in 2011 our NUMed campus in Johor, Malaysia is expanding to include a new base for multidisciplinary research bridging health and the wider environment. The new Tropical Health and Environmental Research initiative will follow the WHO's ONE HEALTH approach for addressing global health problems. The new facility combined with the ONE HEALTH approach opens a wide range of new research opportunities.

Professor Brian Walker, new Pro-Vice-Chancellor for Research Strategy and Resources invites you to this Spotlight event to:

- Identify existing and potential collaborations to grow our research community across South East Asia
- Expand our research capacity at NUMed
- Develop and catalyse our new research facilities

- Wet labs for environmental quality analysis
 - Water Chemistry
 - Microbiology
 - Quantitative Molecular Biology
- Office and laboratory space
- Residential facilities
- Planned clinical care walk-in facility
- A base of international quality to support research in South East Asia

Book your place:
