

Great Britain Sasakawa Foundation Butterfield Awards 2019

Guidelines for referees

Please ensure that due consideration is given to the following when writing your reference:

1. Whether the applicants have the necessary and appropriate qualifications and experience to carry out the proposed project?
2. Whether the proposal is scientifically valid and well-designed?
3. If there are ethical implications, do these appear to have been properly addressed?
4. Whether the outcome of the research is likely to have a practical impact on care and treatment?
5. Whether the link with Japan appears to contribute to the value of the project and to have mutual benefits?
