Dear colleague,

Welcome to your quarterly events update from Cancer Research UK.

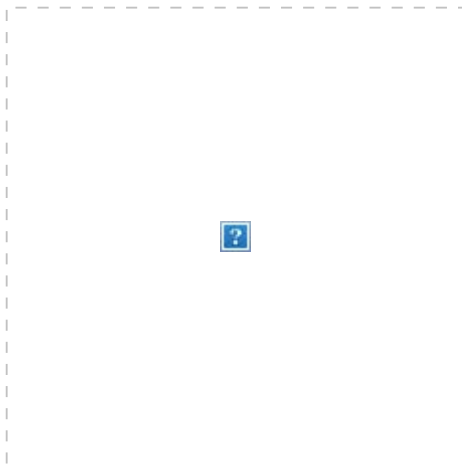

Here you'll find a round-up of the upcoming scientific events we and our partners are hosting.

If you're organising a cancer-related conference or event that you'd like us to share, do get in touch at researchevents@cancer.org.uk.

Many thanks,

Cancer Research UK's Events Team

CRUK EVENTS

CRUK CENTRE FOR DRUG DEVELOPMENT SEMINARS

September – October 2019
Various locations

Do you want to translate your cancer research but are unsure of where to start? Our Centre for Drug Development is holding workshops throughout the UK to take you through the process of translating your research into the clinic.

Sessions will include an introduction to the translation capabilities and support that we can provide you, as well as group discussions on tackling challenges in translating academic research.

You will come away from this session with an understanding of what is involved in translating research, and the support and funding opportunities that we can offer you.

Register for free

INNOVATION SUMMIT

2019 - MANCHESTER

7 October 2019
Alderley Park

This event will cover the motives for engaging in entrepreneurship, the infrastructure available to you, and how to overcome the challenges involved when translating your research into patient benefit.

This is an excellent opportunity to network with members of the local entrepreneurial ecosystem, visit our marketplace and receive 1-on-1 advice from CRUK, our partners and local industry.

Confirmed speakers include The University of Manchester Innovation Group's CEO, **Andrew Wilkinson**, Discovery Park's Chairman **Martino Picardo**, and **Tony Hickson** (CBO) and **Julie Little** (Business Development Executive) from CRUK's Commercial Partnerships team.

CRUK BRAIN TUMOUR CONFERENCE 2020

12 – 14 May 2020
London, UK

We are happy to announce that our successful Brain Tumour Conference returns next year in London.

Our programme will bring you expertise from brain tumour research, together with insights from allied disciplines, to spark new opportunities for collaborative research.

Be the first to hear about key deadlines and important programme information by registering your interest below.

EARLY DETECTION OF

CANCER CONFERENCE

24 – 26 September 2019
California, USA

A limited number of slots are now available for Late Breaking Abstracts. Submissions are welcomed in one of 5 topics, and up to 15 abstracts will be selected for brief poster highlight talks during the conference. Submit by 11 August for your chance to present to a global network of early detection researchers.

Join us for an exciting and progressive agenda covering integrative early detection through multiple technologies; understanding susceptibility for early detection; looking for signals in the immune system and microenvironment; and making prognoses from early detection signals.

Our stellar line-up of contributors includes **Christian Frezza, Regina Barzilay, Fiona Walter, Jelle Wesseling, Jennifer Wargo, Paul Pharoah and Sharon Pitteri.**

CRUK-AACR joint conference

ENGINEERING AND PHYSICAL SCIENCES IN ONCOLOGY

15 – 17 October 2019
London, UK

Join us in London this autumn for the CRUK–AACR Joint Conference on Engineering and Physical Sciences in Oncology.

Keynotes **Sylvia Plevritis** (Stanford University) and **Kevin Brindle** (CRUK Cambridge Institute) join a host of expert speakers including **Charlie Swanton** (University College London/Francis Crick Institute), **Liz Jaffee** (John Hopkins Medicine) and **Paula Hammond** (Massachusetts Institute of Technology).

Sessions include: emerging technologies for cancer diagnosis – focussing on the potential that state-of-the-art cancer detection technology has to improve

clinical diagnosis; and cancer research in the big data era – highlighting how big data and artificial intelligence can accelerate cancer research.

PARTNER EVENTS

MAP

– MOLECULAR ANALYSIS FOR PERSONALISED THERAPY

7 – 9 November 2019
London, UK

Organised by CRUK in partnership with the European Society for Medical Oncology and Unicancer, MAP is the interactive forum for specialists working in precision medicine in oncology.

The packed programme includes a keynote lecture by Gerard Evan on "Myc and microenvironment", and Clare Turnbull on the "Interpretation of germline variation in cancer susceptibility genes: Pitfalls and challenges".

Abstract submission for this event is open. Submit your abstract by 22 August for a chance to share your research with leading academics in precision medicine.

Early bird tickets are available until 5 September. [Book now and save.](#)

NEW DIRECTIONS IN IMMUNO-ONCOLOGY CONFERENCE

10 – 12 September 2019
London, UK

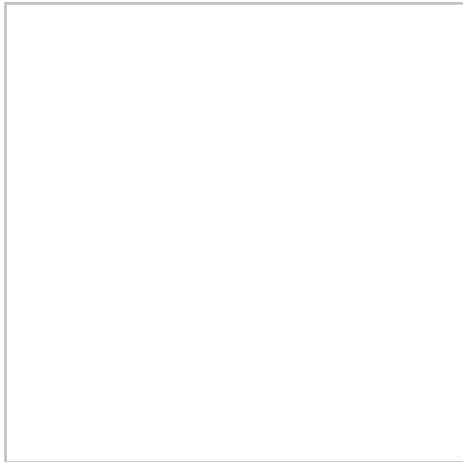

This year's fantastic line-up of speakers includes: **Prof Sergio Quezada** (University College London), **Prof Josephine Bunch** (Imperial College London), **Dr Jennifer Wargo** (MD Anderson), **Dr Samra Turajlic** (The Francis Crick Institute) and **Dr Jerome Galon** (INSERM). The full line-up can be found [here](#).

The programme will cover both the immediate and longer-term prospects in the development pipeline and the means through which we might better determine effective deployment of these interventions, including technology platforms and the 'big data' analytical hurdles.

THE SECOND CRICK

3DMEDLIVE 2019: 3D PRINTING IN SURGERY

2 – 3 October 2019

London, UK

Hosted by The Journal of 3D Printing in Medicine and 3DMedNet, this event aims to convene a community of innovation and best practice to advance surgical applications of 3D printing.

Engage with the community via panel discussions, roundtables and case study presentations from researchers, surgeons, regulators, engineers, funders and representatives from industry.

Confirmed speakers include Chair of the Commission on the Future of Surgery with the Royal College of Surgeons, **Richard Kerr**, Professor of Craniofacial Surgery, **David Dunaway**, and Clinical Innovation Manager at Salisbury NHS Foundation Trust, **Carol Reed**.

Use code **CRUK15** to save 15% on your registration!

INTERNATIONAL CANCER CONFERENCE

15 – 17 September 2019

London, UK

The second Crick International Cancer Conference will host world-leading scientists and clinicians presenting their latest work. Their emerging research will cover links between genomic integrity and cancer, building new cancer models, and improving therapies.

A keynote address will be delivered by **David Pellman** (Dana Faber Cancer Institute), as well as talks from **Rob Bristow** (Manchester Cancer Research Centre), **Laura Attardi** (Stanford Medicine) and **Susana Godinho** (Barts QMUL).

Attend the networking reception to make new links across disciplines, stimulating fresh ideas about the biology that underpins cancer development, and new ways to tackle the disease.

ELRIG DRUG DISCOVERY 2019

ELRIG DRUG DISCOVERY 2019

5 - 6 November 2019

Liverpool, UK

Join us this autumn at ELRIG Drug Discovery for a series of sessions in **Oncology in Drug Discovery**. The track will give insight into the technology that enables drug discovery to advance on the really challenging targets that are likely to have a substantial impact on cancer therapy, from small molecule and

antibody approaches.

Confirmed speakers include: **Paul Workman** (Institute of Cancer Research), **Ali Raof** (Cancer Research UK Manchester Institute), **Rob van Montfort** (Institute of Cancer Research), **Ian Hardcastle** (Northern Institute for Cancer Research) and **Stuart Francis** (Cancer Research UK Therapeutic Discovery Labs).

If you're a post-doc, postgraduate or early career researcher looking to start or build your career in drug discovery, then this is the event for you. Through a series of discussion and networking events, you will be exposed to a wide array of opportunities and career paths.

PAST EVENTS

ASCO Annual Meeting 2019

ASCO ANNUAL MEETING 2019

In June, we attended the ASCO Annual Meeting at McCormick Place in Chicago, USA. This was an excellent opportunity for our teams to connect with international pharmaceutical companies, clinicians and researchers at all levels.

We had representatives from the Experimental Cancer Medicine Centres programme office, our Centre for Drug Development, Precision Medicine, our Commercial Partnerships team and our Strategic Partnerships team. With these minds present, we were able to showcase our breadth of clinical and

translational opportunities.

We also attended sessions given by our funded researchers including Ruth Plummer, Peter Hall, Juan Valle and Keith Wheatley among others.

WOMEN OF INFLUENCE FELLOWS' MEETING

Last month, The Institute of Contemporary Arts played host to our annual Women of Influence Fellows' meeting, bringing together our excellent female fellows with leading businesswomen from outside academia. Our CEO, Michelle Mitchell, shared her journey to CRUK, including the challenges and opportunities she has faced on the way. The meeting was also home to engaging discussions on team resilience, and the benefits of mentoring schemes.

Our funded researchers, Dr Michela Garofalo and Dr Carmela de Santo, spoke about their experiences of being part of the CRUK Women of Influence mentoring scheme, together with their mentors Alice Choi and Martina Platts. Our mentors are successful, experienced businesswomen who have faced similar challenges to our female fellows during their careers.

[Find out more about the scheme](#)
