

# OPEN DAY 2015 15TH JULY

**Come meet the scientists and learn about state of the art research at the Institute of Genetic Medicine!**

We would like to invite students from schools across the North East to participate in our *“Bench to bedside”* Open Day specifically tailored for the A-level students. During this event you will have a chance to hear about research in genetics, meet the patients, engage in fascinating debates and perform hands on experiments at the research tables. You will also have an opportunity to learn about careers in science and to chat to our students and careers advisors.

**To find out more please visit our blog at:**
