

CellRepo – Version control for cell engineering; new processes and tools for more open and trustworthy engineering biology

Dr. Lenka Pelechova, Leanne Hobbs, Dr Nadia Rostami, Natalie Partridge

Our team

Newcastle University
University of Madrid

Based on principles of open and transparent
biotechnology practice and research

<https://cellrepo.ico2s.org/>

What is CellRepo

Online strain and species database

Free to use

Cloud based

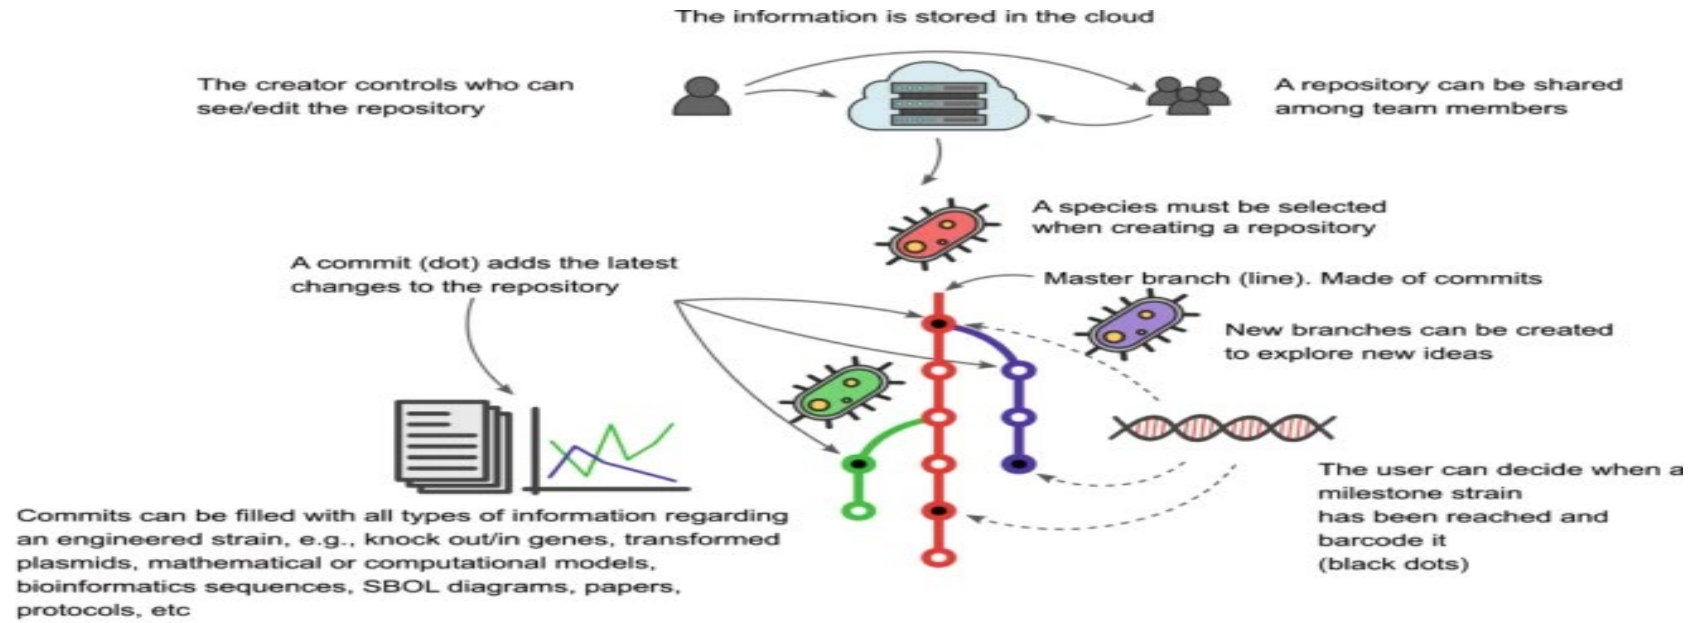

Engineered cell lines monitoring

Version control system

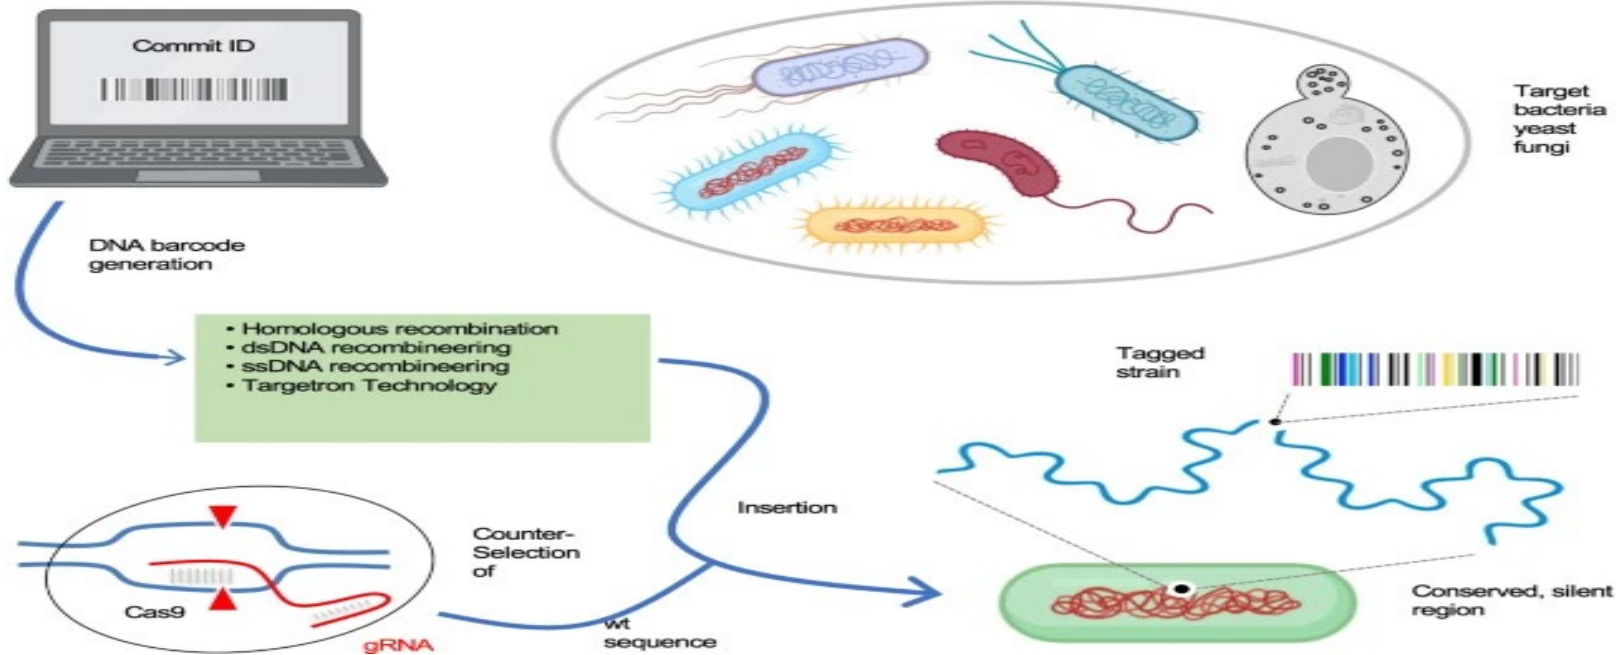

Software engineering
